Wordpress Development

Projects

● Eximtel

Eximtel follows global trade movements and provides visual analysis based on containerized shipment manifests and records from customs agencies worldwide.

Link: eximtel.com
Developed by ARITS Limited

● MERLIN Dashboard

Merlin offers a comprehensive MERL solution that is both user-friendly and intuitive. With Merlin, you can efficiently manage your interventions, enabling you to make timely and informed decisions.

Link: merlinapp.co.uk
Developed by ARITS Limited

● @aritslimited/commitlint

A commit linting commitizen adapter & branch naming convention tool tailored for ARITS Limited with Jira Issue & Project Tracking Software; to track commits to Jira issues and transition them to the next stage of development workflow automatically.

Link: npmjs.com/package/@aritslimited/commitlint

● deep-object-key-alternator

A versatile utility function that allows you to recursively parse an object or array of objects, applying a key mapping to rename object keys. It's particularly handy when you need to transform the structure of nested objects while preserving the original data.

Link: npmjs.com/package/deep-object-key-alternator

● Space News

A news portal containing various news of space exploration, trends, research & updates. It is built with Laravel and Tailwind.
